

Is the Activated Dreamspell a Treaty of Sovereign Humanity?

by David Peace=One Love
www.OneRainbowBridge.com

I have been deeply considering how my actions contribute to the welfare of us all living our true heartfelt dreams. Is this why you're here on Earth?

Today I write these words on a White Crystal Wizard 28th March 2007 reflecting on this day being the 21st Anniversary of the Proclamation of the Church Of Love and also the galactic birthday of our current Prime Minister John Howard.

I have heard many people judging our Prime Minister. I have stood there in his shoes and felt the brunt of people's complaints. I have endured the experience of our own national leader being shot down and trampled on by ignorant thought-forms. Is this what I find in line as I stand in Centrelink?

And now as I write these words I consider whether I appear to be taking sides. Do you really feel there is a preferred side? Aren't we all really working together? So in the apparent illusion of dual thinking and bi-partisan politics I take the opportunity today to acknowledge our oneness. I feel it's about time as a community of intelligent beings that we implement through our own actions, systems informing our practical sustainable lives.

Let's speak of our national leader John Howard who has so many people on his back like devils complaining about what he isn't doing, or could do better, that one wonders if these same devils on his back were to wake up to the fact they are contributing to the situation. One less person complaining, one more person actually bringing their true gifts and talents to our world.

• **This ought to change our current account deficit.**

Natural shareable qualities are passed on seamlessly. It's the true work of love. Zero Point. As we sharpen our tools evolving battler mentalities toward wholly grateful recipients of our own gifts, we presently see our collective experience change. As this happens the group consciousness chooses new qualities in our 'leader' reflecting our enhancing sense of self acknowledgement and respect.

As our mandate is positive

and constructive in thought word and deed, we embrace opportunities informing this greater presence. We become ever more conscious, forgiving and compassionate for the free will choice to complain about our leaders, allowing the experience of its futility and even be embarrassed by its fruitlessness. Now we're overcoming subsidies through our new rites of passage into maturity as a people.

We smile from this promised land inherently entwined with the Venus Transit and the Endeavours of Captain Cook and crew that a final frontier be reached and a new sovereign humanity be born. And here we are. A new mix with so much to give as we know the way of the heart.

Maybe we're eclipsing our ways of interacting as we come to the end of the Red Magnetic Moon year which began on 26th July 2006, John Howard's 67th birthday. No longer do we complain about people, we see the higher meaning we are bringing for we are all messengers for each other in this dream. We are conscious of our judgements by making them in such a way our deductions evoke evolved mutually prophetic experiences. It's about timespace.

• **Where are you in timespace today? What is your Universal Resource Locator?**

I endorse galactic passports for the identification of sovereign humanity. I reflect on my journey from the Gold Coast to Canberra at the time of my 21st birthday with the sole intention to get my British Passport and stay with my grandparents now living in Canberra from the United Kingdom. The day this occurred, 25th May 1999, was a Yellow Planetary Human.

Mahatma Gandhi was born on a Yellow Planetary Human

day (the tenth day of this Blue Magnetic Night 13 day Wavspell) was heard to say "Be the change you wish to see in the world" and whether those around us embody what we love to see, this is our choice and soul response ability.

I am glad to express this stuff here. Write on! I am done with complaining and if this be a contradiction in expression write now. As each step deepens my leadership, all I see emerging is infinite gratitude for what we have and what we can create together. We are in earthHeaven and we have all we could ever need.

It's time realising this through our application.

According to the Dreamspell prophetic code, John Howard is a White Crystal Wizard which means this day he was born, alike today's qualities:

"I dedicate to enchant, universalising receptivity. I co-operate for the output of timelessness through the power of death, equalising opportunity."
• yoU aRe the prophet I sent fore

If we may be set adrift in an ocean of aimless judgement, it can be helpful to consider the nature of the unfolding experience of being God together in dream creation, and for this matter, to be conscious and appreciative of all the natural cycles in existence. Lead us to the wonder land. UR it.

How we change and grow is so interesting to me. I am amazed at the development of self, aren't you? Our ability to generate evolution is incredible especially as we're conscious of it occurring. Do we need leaders? Are you helping? How are you faring?

The activated Dreamspell is a treaty of sovereign humanity. The Aquarius Festival is NOW.

KEEPING THE FAITH

by Andy Gough

So it's finally over - the advertising budgets have been blown, and the die has been cast. A little time to lie down and reflect on the outcome.

Shell shock. Why have the Nationals done so well? Perhaps partly because they simply were not Labor, who for some reason proudly displayed Iemma's grimacing visage at polling booths. Nor were they Liberals wearing their budgie smugglers at the booth. They ran their own campaigns, even if they shared policies. They pretended to be a bit green, but to them, it's just a colour. They had the upper hand with the railway, promising \$100 million they now don't have to provide.

Thomas and Don have had over eight years to become established in their electorates, presented many cheques and built many relationships. Thomas is nice, disarming and personable. He's not Ian Causley. And he has a sizeable war chest to finance posters, television and newspaper

advertising, newsletters, flyers etc from corporate donations to the National party as well as electoral funding. Cashed up to the eyeballs, compared to the Greens' modest budget of \$7,500 for the entire campaign.

So while the groundswell against climate change seems to have gone out to buy air-conditioners, we have still gained some ground and deserve to celebrate. We have re-elected Lee Rhiannon to the upper house along with Dr John Kaye as a fourth MLC.

We returned almost 18% of the primary vote here in Lismore - almost one in five people voted Green. The Greens won the most votes at nine booths across the electorate including Nimbin, Wilsons Creek, Cawongla, Uki, Kunghur, Jiggi, Federal, The Channon and Rosebank. We also did well (20%+) at Chillingham, Clunes, Dungay, Dunoon, Horseshoe Creek, Lismore, Stokers Siding and Tyalgum. It seems the villages are the Green strongholds while the big towns went Nat.

But lots of people didn't vote at all. There are so many

people who are deliberately not on, or who have dropped off the electoral roll. If all these people would just enrol for one election we could kick some real butt! And this upcoming federal election is when to do it.

But should we help Labor get re-elected or put in a Greens member? What has Labor really got to offer? The Greens policies deserve a voice in the lower house as well. It can be done, but it will need a concerted effort to break the two-party paradigm and rusted on voting habits. But that's down the track - we've had a successful practice run.

I want to offer a huge thank you to all the volunteers and supporters who helped the Greens campaign for Lismore, and especially to my wife Georgie. The Greens had every booth staffed on polling day as well as at pre-poll, ran a busy office and had market stalls and letter-boxing going on.

Thank you Nimbin, we appreciate all your support on the ground and at the booths. Now is not the time to give up. It's time to get ready for the next challenge, hold our heads up high and be proud to be Green.

Plants and pets at Kyogle Library

LandCare Books

The \$500 worth of books donated by Cedar Point LandCare and featured in the in-library LandCare display during March are now available for borrowing. Photographed with the in-library LandCare display are LandCare community support officers Johanna Kempff, Bob Jarman and Corinne from Kyogle library.

Responsible Pet Care Visit

On 14th and 21st March Ranger David and surprise special guest Chloe the dog visited Kyogle Library to talk about Responsible Pet Care with Kyogle pre-schoolers.

The visits included storytime with Kyogle library's Cheryl T and were big hits with the children as

they learned the importance of caring for much-loved pets in a responsible way. They received colour-ins and pet care hand-outs to take home.

If you would also like to learn some great tips on how to responsibly care for your precious pet you can BORROW the DVD free from Kyogle library.

Free school-hols fun for kids

For Kids aged 5 - 12 years, on Friday, 20th April from 10 to 11am at Kyogle library

children's area.

Cost: FREE! Bookings are essential (limited places) Contact Kyogle library staff @ Stratheden Street or phone 6632-1134.

Library Closures

Kyogle library will be closed over Easter from Good Friday, 6th April and will re-open 10am Tuesday, 10th April. It will also be closed ANZAC Day Wednesday, 25th April 2007, and will re-open 10am Thursday 26th April.
